DESCRIPTION OF CHANGE: (include support materials)

C002S Shutter Camera. The operation of the shutter function has been improved. Improvements in the monitor's power management and changes in the capacitor in the camera now allow the shutter to operate without the need for a separate power source at the camera.

Image of change:

Old: needed power supplied at the camera.

New: No external power wire is required for the camera.

**TARGET IMPLEMENTATION DATE: Immediately****IMPACT OF CHANGE:**

Faster installation of our C002S camera. No power is needed at the camera. More dependable.

TARGET IMPLEMENTATION DATE: 10/15/2022

Please contact Verity[®] tech@veritysafe.com – 574-807-6004 (24/7) with any questions regarding this change.
